

Index

msaJustPyUI - FastAPI adapted JustPy version for Integration of justpy UI Web Framework to msaAppService, which allows simple adding of routes to justpy webpages functions.

`pypi package` `package or version not found` `python` `package or version not found`

Features

- **Integrated justpy WEB UI:** Integrated justpy UI Web Framework to FastAPI/Starlette, which allows simple adding of routes to justpy webpages functions.

License Agreement

- `msaJustPyUI` is based on `MIT` open source and free to use, it is free for commercial use, but please show/list the copyright information about `msaJustPyUI` somewhere.

How to create the documentation

We use `mkdocs` and `mkdocsstring`. The code reference and nav entry get's created virtually by the triggered python script `/docs/gen_ref_pages.py` while `mkdocs` `serve` or `build` is executed.

Requirements Install for the PDF creation option:

PDF Export is using mainly weasyprint, if you get some errors here pls. check there documentation. Installation is part of the msaJustPyUI, so this should be fine.

We can now test and view our documentation using:

```
mkdocs serve
```

Build static Site:

```
mkdocs build
```

Build and Publish

Build:

```
python setup.py sdist
```

Publish to pypi:

```
twine upload dist/*
```
