

msaJustPyUI Module

.ui_demos.happiness

Attributes

chart_list module-attribute

```
chart_list = []
```

corr_page module-attribute

```
corr_page = create_corr_page()
```

df module-attribute

```
df = pd.read_csv(  
    "http://elimintz.github.io/happiness_report_2019.csv"  
).round(3)
```

Classes

ScatterWithRegression

Bases: jp.Scatter

Functions

__init__

```
__init__(x, y, **kwargs)
```

Functions

corr_button_click async

```
corr_button_click(self, msg)
```

corr_stag_test async

```
corr_stag_test()
```

corr_test async

```
corr_test()
```

create_corr_page

```
create_corr_page()
```

grid_change

```
grid_change(self, msg)
```

happiness_demo async

```
happiness_demo(request: Request)
```

happiness_plot

```
happiness_plot(request)
```

page_ready async

```
page_ready(self, msg)
```

series_change

```
series_change(self, msg)
```

stack_change

```
stack_change(self, msg)
```
